Dear [REDACTED]

thanks for your volunteering for the presentation on the Slovenian situation.

Since I am retired from the Wirtschaftsuniversität this is not a university thing. As discussed with your Director [REDACTED], the cost will be 6.000€ to cover 3 days of preparation of the material and to deliver the seminar. You will receive an invoice from me personally.

With regards to the questions you posed, I will do my best to integrate them in my material, except the technical questions on interference and protection, which - being an economist - I cannot answer competently. But I will do some research to see whether there are already solutions to some of these questions.

Numbers 1-6 of your list cover some of the most important problems and will be dealt with extensively.

Looking forward to seeing you next week at APEK

best regards

[REDACTED]
